

Boulder Creek Emergency Contacts

Every number checked against the agency's own site. Print it and stick it on the fridge.

In an emergency, call 911.

Fire, medical, a crash with injuries, a crime in progress, or a power line on the ground. Don't debate whether it's "bad enough"; dispatchers would rather sort that out. Everything below is for problems that are not emergencies.

FIRE

Boulder Creek Fire Protection District, office (831) 338-7222

CAL FIRE CZU Unit, Felton, office (831) 335-5353

District station: 13230 Central Ave. Office lines are for district business, permits, and defensible space, not dispatch. If something is burning, call 911.

LAW ENFORCEMENT: COUNTY SHERIFF

Non-emergency dispatch (831) 471-1121

Sheriff's Office main, records (831) 454-7600

Boulder Creek Service Center (831) 454-7440

Boulder Creek is unincorporated, so the Santa Cruz County Sheriff's Office is our law enforcement. The service center at 13210 Central Ave keeps limited hours; call before you drive over.

ROADS

County road dispatch, 24/7 (831) 477-3999

County Public Works main (831) 454-2160

Caltrans highway conditions 1-800-427-7623

Road dispatch covers trees down, slides, and flooding on county roads, any hour. Public Works main: weekdays 8 to noon and 1 to 5. Highways 9 and 236 are Caltrans; check roads.dot.ca.gov. If a downed tree involves power lines, call 911 and stay well away.

POWER AND GAS: PG&E

Report or track an outage, 24 hours 1-800-743-5002

Customer service 1-877-660-6789

Downed line: 911 first, then PG&E 1-800-743-5000

Assume every downed line is live; keep people and pets far away. If you smell gas, leave the area first, then call 911, then report to PG&E from somewhere safe.

WATER: SAN LORENZO VALLEY WATER DISTRICT

One number, day or night (831) 338-2153

Office at 13060 Highway 9; weekdays 8:30 to noon and 1 to 5. After hours the same number forwards to an answering service that reaches on-call crews. On a small mutual water system instead? Your bill has the right number; write it here:

ALERTS: CRUZAWARE

Sign up online cruzaware.org

Basic text alerts: text your ZIP to 888777

The county's alert system sends evacuation notices and severe weather warnings by text, call, and email. Register more than one contact method. Add PG&E outage alerts through your PG&E account before storm season.

Keep this where you can find it. Phones die in outages and cell service up here gets thin in a storm. A paper copy in a kitchen drawer costs you nothing.
