Compare a few listings and choose a clear next step

Start with [BCL Jobs](https://bouldercreeklocal.com/jobs) bouldercreeklocal.com/jobs

Open each employer's own listing before applying. Compare up to three roles and keep the original links so you can check details again. Apply through the employer's stated process.

Set your search boundaries

Work I want to explore

Days and hours I can work

My pay requirement

Work locations and practical travel limit, including shift start/end times

One requirement I can be flexible about

One requirement I need to confirm before applying

Read dates carefully

Copy what the employer states. Write "not stated" when a detail is missing. The date you found a job is different from its posting date. Leave the posting date unknown if the employer doesn't provide it.

Make one application easier to finish

My first choice, and why it fits my schedule, location, and requirements

Before applying

- ☐ Reopen the employer's listing and check that applications are still accepted.
- ☐ Confirm the work location; check geographic or onsite requirements for remote roles.
- ☐ Check the schedule and travel plan together, including early or late shifts.
- ☐ Follow the requested application method and document requirements.
- ☐ Choose one or two examples that match the stated requirements.
- ☐ Review contact details, filenames, and the final application.

Track the next action

Role A: date applied or question sent / next action and date

Role B: date applied or question sent / next action and date

Role C: date applied or question sent / next action and date

Save the listing and your submitted materials for your records. Follow any employer timeline or instructions about contacting them when deciding whether to check in.
